

APPROVED
Town of Fitzwilliam
Planning Board Meeting
March 1, 2016

Members Present: Terry Silverman, Robin Blais, and Susan Silverman, Selectman's Representative.

Others Present: None

Call to Order: 7:00 PM

The meeting tonight did not have a quorum so no official business was conducted. Susan Silverman told the Board that Eversource had notified the Selectmen that they planned to cut brush and vegetation along existing power lines as part of scheduled routine maintenance.

The Board reviewed a letter sent by Kinder Morgan to FERC requesting action to allow them to cut trees along the pipeline path. The letter will be forwarded to Attorney Arthur Cunningham for his input.

The Board agreed that the Coate review of the Eversource sound report will be available at the March 15, 2016 scheduled public hearing as part of the public record of that meeting. Mr. Coate will attend this meeting and present his findings.

Silverman asked that the Board review the Coate report and compare it to the Eversource Sound Study report done by Burns and McDonnell dated November 2015. Staff will send hard copy of Coate's report to all Board members.

The meeting was adjourned at 7:45 PM.
