

Federal Energy Regulatory Commission's Scoping Meetings for Public Comment

We are presently in the "Scoping" period of the approval/disapproval process, where FERC visits selected towns to offer the public an opportunity to comment on its projects. We encourage you to attend these meetings and ask any questions you may have about the project. Are you concerned about the environmental effects of the construction and maintenance of the pipe? Are you worried about the social/economic results of a project of this size? Does the forced "taking

of local land" for private profit concern you?

Effected landowners and citizens of Fitzwilliam are encouraged to attend. You are allowed to ask your questions to FERC during a 3 minute allotment of time. Sign up to speak 1 hour before the event begins.

Please participate, this is where your action or inaction will have consequences for you and your neighbors. Come and attend.

Attendance highly recommended
